MEMORANDUM

SJUT/DVCPF/MEM/2010/07003

TO: DEAN OF STUDENTS, SOSJUT CHAIR, ALL STUDENTS
FROM: DVCPF
RE: **TUITION FEES FOR 2010/11**

After holding tuition fees unchanged for the first three years of operation, despite steadily increasing costs, the University found it necessary to increase tuition fees for 2010/11. The University submitted those increases to the Tanzanian Commission for Universities (TCU) and the Higher Education Students Loans Board (HESLB) early in the year. TCU published the new tuition fees in their guide for the new central admissions systems, giving the University confidence the new fees, which remained well under nearly all other private universities, were acceptable to the Tanzanian government and its agencies.

However, in the past week, HESLB notified SJUT that they would not make *any* increase in tuition fee payments for the 2010/11 academic year for *any* institution, but would continue to hold them at previous levels. This HESLB directive puts SJUT in the position that it must join CBE, IFM, and other private universities in requiring students to top up the difference. The effect is mitigated somewhat by a reduction in the total of other fees, as shown before:
